DANGER! EYE & SKIN IRRITANT. HARMFUL IF SWALLOWED. KEEP OUT OF REACH OF CHILDREN.
Carefully read all other warnings and directions elsewhere on label. Use only as directed.

1 GALLON (3.8L)

DESCRIPTION:

Back To Nature Lead-Clean™ is a water-based, biodegradable, lead dust cleaner. A special NON-TSP formula eliminates lead dust, the most common cause of lead poisoning.

Lead-Clean is designed to hold lead in solution for effective removal. It is also an excellent multipurpose cleaner on dirt, stains, grease, grime and unwanted marks. It is designed to react quickly and work efficiently. As a post paint removal product, it insures effective, time saving clean up. Lead-Clean is also two products in one. For use prior to lead paint encapsulation, let it dwell longer and a special deglossing agent helps insure proper paint adherence.

INSTRUCTIONS:

1. Back To Nature Lead-Clean should be used full strength.
2. Apply Lead-Clean to the surface—work in with a brush or pad for stubborn areas. Allow to dwell on the surface for up to 5 minutes.
3. Wipe down with wet sponge/cloth and let dry.
4. When repainting after paint removal, let dry approximately 1 hour before applying new finish.
5. Hepa vacuum where necessary. Inspect visually and with wipe sample where necessary.
6. Use second application when necessary. Do not reuse applicators.

CAUTIONS: CONTAINS SODIUM META SILICATE AND SODIUM TRIPOLYPHOSPHATE. Harmful if swallowed. May cause eye or skin irritation. Do not take internally. Avoid contact with eyes or prolonged contact with skin. Close container after each use. Do not transfer to unlabeled containers.

WARNING: THIS PRODUCT CONTAINS CHEMICALS KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER AND BIRTH DEFECTS, OR OTHER REPRODUCTIVE HARM.

FIRST AID: If swallowed, do not induce vomiting. Drink large quantities of water. Never give anything by mouth to an unconscious person. Call poison control center, hospital emergency room or physician for instructions. In case of eye contact, immediately flush with water for at least fifteen minutes. Get medical attention. In case of skin contact, wash with soap and water. If irritation persists, get medical attention.

KEEP OUT OF REACH OF CHILDREN.

California SCAQMD Rule 443.1:Max. VOC 3 g/L; Max Vapor Pressure of VOC: 0.2 mm Hg. Non-photochemically Reactive.
