SECTION 1 -- PRODUCT & COMPANY IDENTIFICATION

SUNNYSIDE CORPORATION
225 CARPENTER AVENUE
WHEELING, ILLINOIS 60090
(847) 541-5700

EMERGENCY TELEPHONE
(800) 424-9300

PRODUCT NAME: M-1 Advanced Mildew Treatment
CHEMICAL NAME: Not Applicable
CHEMICAL FAMILY: Not Applicable
FORMULA: Proprietary
SYNONYMS: None

FOR INFORMATION: (847) 541-5700

MANUFACTURER: Sunnyside Corporation
225 Carpenter Avenue
Wheeling, IL 60090

SECTION 2 -- COMPOSITION/INFORMATION ON INGREDIENTS

The listed components are considered to be hazardous based on OSHA’s Hazard Communication Standard. For further regulatory see Section 15.

OSHA Regulatory Status: This product is classified as hazardous under OSHA regulations.

SECTION 3 -- HAZARDS IDENTIFICATION

EMERGENCY OVERVIEW: M-1 Advanced Mildew Treatment is a clear amber liquid with a characteristic odor. May cause severe eye and skin irritation and mild respiratory irritation. May evolve cause anesthesia or narcotic effects and may result in kidney damage. May aggravate pre-existing kidney and lung disorders.

INGESTION: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

EYE CONTACT: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

INHALATION: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. Preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTES TO PHYSICIAN: Probable mucosal damage may contraindicate use of gastric lavage. Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

SECTION 4 -- FIRST AID MEASURES

Have the product container or label with you when calling a poison control center or doctor or going for treatment.
SECTION 5 -- FIRE FIGHTING MEASURES

FLASH POINT >110° C (>230° F) ASTM D3278-96 Seta flash closed cup.
FLAMMABLE LIMITS 1.5% - 10.9% (for glycol ether)
AUTOIGNITION TEMPERATURE 277° C (531° F) (for glycol ether)
FLAMMABILITY CLASS Combustible liquid Class IIIB
HAZARDOUS PRODUCTS OF COMBUSTION Carbon monoxide, carbon dioxide and iodine vapors
FIRE EXTINGUISHING MEDIA Dry chemical, carbon dioxide and water spray or alcohol resistant foam.
FIREFIGHTING INSTRUCTIONS Move container from fire area if you do not without risk. Do not scatter material with high-pressure water streams. Avoid breathing vapors keep upwind. Positive pressure self-contained breathing apparatus with face piece and structural firefighters' protective clothing will provide limited protection.
UNUSUAL FIRE & EXPLOSION HAZARDS This material may burn but does not ignite readily. Runoff from fire control or dilution water may cause pollution. May evolve vapors of iodine.

SECTION 6 -- ACCIDENTAL RELEASE MEASURES

Keep unnecessary people away; isolate hazard area and deny entry. Wear protective equipment as specified in Section 8. Stop leak if you can do it without risk. For small spills, absorb with vermiculite or other noncombustible absorbent material and place into containers for later disposal. For large spills, dike far ahead of liquid spill for later disposal. If water pollution occurs, notify the appropriate authorities. Observe all Federal State and Local regulations regarding notifications of accidental releases.

SECTION 7-- HANDLING & STORAGE

Avoid contact with skin, eyes, or clothing. Avoid breathing vapor or mist. Wash thoroughly after handling. Keep container tightly closed. Use only with adequate ventilation. Store away from incompatible substances in a cool, dry, ventilated area. Do not contaminate water, food, or feed by storage or disposal. Observe all Federal State and Local regulations when storing or disposing of this substance.

SECTION 8 -- PERSONAL PROTECTION/EXPOSURE CONTROLS

VENTILATION Provide adequate ventilation or local exhaust to minimize exposure.
EYEFACE PROTECTION If potential for contact with liquid exists, use splash-proof safety goggles and a face shield.
SKIN PROTECTION Wear impervious gloves and apron to prevent skin contact. Wear impermeable suit if exposure is possible to a large portion of the body.
RESPIRATORY PROTECTION Whenever workplace conditions warrant the use of a respirator, a respiratory protection program meeting OSHA 1910.149 must be followed utilizing a NIOSH/MSHA-approved respirator.
OTHER Eyewash and safety shower should be available within the immediate work area for emergency use.

SECTION 10 -- STABILITY & REACTIVITY

REACTIVITY Stable under normal temperatures and pressures.
CONDITIONS TO AVOID Avoid heat or sources of ignition.
INCOMPATIBILITY: Avoid contact with strong acids, bases, and oxidizing agents.
HAZARDOUS DECOMPOSITION Decomposition may release carbon monoxide, carbon dioxide and iodine vapors.
HAZARDOUS POLYMOLYMERIZATION Hazardous polymerization does not occur.
SECTION 11 -- TOXICOLOGICAL INFORMATION

ACUTE ORAL EFFECTS
LD50 (oral, rat) – 2140 mg/kg

ACUTE SKIN EFFECTS
LD50 (dermal, rabbit) >2000 mg/kg. Severe skin irritant. This product is not a skin sensitizer.

ACUTE EYE EFFECTS
IPBC: Severe irritation and corrosive (rabbit). The corrosion is completely reversible and the irritation is markedly reduced by the irrigation of the eyes with water 20-30 seconds after exposure to test sample. Aliphatic alcohol : Mild to moderate irritation.

ACUTE INHALATION EFFECTS
LC50 (rat, 4 hr) – 290 mg/m3.

SUBCHRONIC EFFECTS AND OTHER STUDIES.
Glycol ether : In animal skin conduct studies, dosage levels of 5-10 mg/kg caused central nervous system and kidney effects.

For additional information on active ingredients, contact Sunnyside Corporation.

SECTION 12 -- ECOLOGICAL INFORMATION

No data is available on this product, however, ecotoxicological data is included on OSHA hazardous ingredients. For additional information, contact Sunnyside Corporation.

ECOTOXICITY
This product is toxic to fish. Do not apply directly to water or wetlands. Do not contaminate water when disposing of equipment wash waters.

Data on the active ingredient, 3-ido-2-propynyl butyl carbamate (IPBC), is as follows:

- LC50 (rainbow trout, 96 hr flow-through) - 67 mcg/L.
- EC50 (daphnia magna, 48 hr) - 0.16 mg/L.
- EC50 (Scenedesmus subspicatus, 72 hr) - 22 mcg/L.

Aliphatic alcohol (concentration in product: 30-50%) has a moderate potential to affect some aquatic organisms, a moderate potential to affect algal growth, a low potential to affect secondary waste treatment microbial metabolism, and germination and/or early growth of some plants. It is expected to biodegrade and is not expected to persist in an aquatic environment. When diluted with a large amount of water, this material released directly or indirectly into the environment is not expected to have a significant impact.

ENVIRONMENTAL FATE
This product is a pesticide and may cause adverse environmental impact. Avoid contamination of streams and sewers.

The fate of the active ingredient, IPBC, is quite favorable. Degradation is rapid and occurs through biological as well as non-biological processes.

- Classified as readily biodegradable. Low potential to bioaccumulate.
- Octanol/water partition coefficient: LogP ow = 2.81
- COD: 1148 mg/L.

Aliphatic alcohol (concentration in product: 30-50%): Biodegradation - A 28-day test for ready biodegradability using unacclimated microorganisms showed 76% degradation of the test article as measured by carbon dioxide evolution.

- Octanol/water partition coefficient: LogP ow = 3.47.

SECTION 13 -- DISPOSAL INFORMATION

RCRA HAZARDOUS WASTE
This product is not a RCRA hazardous waste by definition.

WASTE DISPOSAL PROCEDURE
The user of the material has the responsibility to dispose of unused material, residues, and containers in compliance with all Federal, State, and Local Regulations.

SECTION 14 -- TRANSPORTATION INFORMATION

DOT
Selling Name: Non-hazardous additive/compound
Labels Required: None

SECTION 15 -- REGULATORY INFORMATION

CERCLA SECTION 103 (40CFR302.4)
This product does not contain any chemicals that are reportable to the National Response Center under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA).

SARA SECTION 302 (40CFR355.30), SARA SECTION 304 (40CFR355.40)
This product does not contain any chemicals that require emergency planning based on Threshold Planning Quantities (TPQ) or release reporting based on Reportable Quantities (RQ).

SARA HAZARD CATEGORIES, SARA SECTIONS 311/312 (40CFR370.21)

ACUTE

SARA SECTION 313 (40CFR372.65), SARA SECTION 304 (40CFR355.40)
This product contains the following toxic chemicals subject to the reporting requirements of the Emergency Planning and Community Right-to-Know Act of 1986. This information must be included in all MSDS’s that are copied and distributed for this material.

CALIFORNIA PROPOSITION 65
This product does not contain any substances that are currently on the list of Known Carcinogens and Reproductive Toxins, at levels which would require a warning under the statute.

STATE RIGHT-TO-KNOW
This product is regulated by the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is exempt from State Right-to-Know labeling requirements when labeled with an approved EPA label.

EPA Registration No. 5363-74-7135
