SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

- **Trade name**: Premium Lacquer Thinner
- **Product form**: Mixture
- **Product code**: 478

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.3. Details of the supplier of the safety data sheet

Sunnyside Corporation
225 Carpenter Avenue
Wheeling, IL 60090
T 800-323-8611

1.4. Emergency telephone number

Emergency number: CHEMTREC: (800) 424-9300

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

- **GHS-US classification**
  - Flam. Liq. 2: H225
  - Acute Tox. 4 (Inhalation): H332
  - Skin Irrit. 2: H315
  - Eye Irrit. 2A: H319
  - Repr. 1B: H360
  - STOT SE 3: H336
  - STOT SE 1: H370
  - STOT RE 2: H373
  - Asp. Tox. 1: H304

2.2. Label elements

- **GHS-US labelling**
  - Hazard pictograms (GHS-US):
    - GHS02
    - GHS07
    - GHS08

- **Signal word (GHS-US)**: Danger

- **Hazard statements (GHS-US)**:
  - H225 - Highly flammable liquid and vapour
  - H304 - May be fatal if swallowed and enters airways
  - H315 - Causes skin irritation
  - H319 - Causes serious eye irritation
  - H332 - Harmful if inhaled
  - H336 - May cause drowsiness or dizziness
  - H360 - May damage fertility or the unborn child
  - H370 - Causes damage to organs
  - H373 - May cause damage to organs through prolonged or repeated exposure

- **Precautionary statements (GHS-US)**:
  - P201 - Obtain special instructions before use
  - P202 - Do not handle until all safety precautions have been read and understood
  - P210 - Keep away from heat, open flames, sparks. - No smoking
  - P233 - Keep container tightly closed
  - P240 - Ground/bond container and receiving equipment
  - P241 - Use explosion-proof electrical, lighting, ventilating equipment
  - P242 - Use only non-sparking tools
  - P243 - Take precautionary measures against static discharge
  - P260 - Do not breathe vapours
  - P261 - Avoid breathing vapours
  - P264 - Wash hands, forearms and face thoroughly after handling
  - P270 - Do not eat, drink or smoke when using this product
  - P271 - Use only outdoors or in a well-ventilated area
  - P280 - Wear eye protection, face protection, protective clothing, protective gloves
  - P301+P310 - If SWALLOWED: Immediately call a doctor, a poison center
  - P302+P352 - If on skin: Wash with plenty of soap and water
  - P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower
  - P304+P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing
Premium Lacquer Thinner
Safety Data Sheet
Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P307+P311 - If exposed: Call a poison center/doctor
P308+P313 - If exposed or concerned: Get medical advice/attention
P312 - Call a doctor, a poison center if you feel unwell
P314 - Get medical advice/attention if you feel unwell
P321 - Specific treatment (see first aid instructions on this label)
P331 - Do NOT induce vomiting
P332+P313 - If skin irritation occurs: Get medical advice/attention
P337+P313 - If eye irritation persists: Get medical advice/attention
P362 - Take off contaminated clothing and wash before reuse
P370+P378 - In case of fire: Use foam, dry extinguishing powder to extinguish
P403+P233 - Store in a well-ventilated place. Keep container tightly closed
P403+P235 - Store in a well-ventilated place. Keep cool
P405 - Store locked up
P501 - Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation

2.3. Other hazards
No additional information available

2.4. Unknown acute toxicity (GHS-US)
No data available

SECTION 3: Composition/information on ingredients

3.1. Substance
Not applicable

3.2. Mixture

SECTION 4: First aid measures

4.1. Description of first aid measures
First-aid measures general: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.

First-aid measures after inhalation: IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention. If breathing is difficult, supply oxygen. If breathing has stopped, give artificial respiration.

First-aid measures after skin contact: IF ON SKIN (or clothing): Remove affected clothing and wash all exposed skin with water for at least 15 minutes. Get medical attention immediately.

First-aid measures after eye contact: IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. Get medical attention immediately. Continue rinsing.

First-aid measures after ingestion: IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center or medical professional. Get medical attention immediately.

4.2. Most important symptoms and effects, both acute and delayed
Symptoms/injuries after inhalation: May be fatal if swallowed and enters airways. Harmful if inhaled. May cause drowsiness or dizziness.
Symptoms/injuries after skin contact: Causes skin irritation.
Symptoms/injuries after eye contact: Causes serious eye irritation.
Symptoms/injuries after ingestion: May cause gastrointestinal irritation.
Chronic symptoms: Causes damage to organs. May cause damage to organs through prolonged or repeated exposure. May damage fertility. May damage the unborn child.

4.3. Indication of any immediate medical attention and special treatment needed
No additional information available

SECTION 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media: Dry chemical. Alcohol foam.

5.2. Special hazards arising from the substance or mixture
Fire hazard: Highly flammable liquid and vapour.
Explosion hazard: Vapors may cause a flash fire or ignite explosively.
5.3. Advice for firefighters

Firefighting instructions: Exercise caution when fighting any chemical fire. Vapors may travel considerable distance to a source of ignition and flash back. Do not dispose of fire-fighting water in the environment. Prevent human exposure to fire, fumes, smoke and products of combustion.

Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Evacuate area. Keep upwind. Ventilate area. Spill should be handled by trained clean-up crews properly equipped with respiratory equipment and full chemical protective gear (see Section 8).

6.1.1. For non-emergency personnel

Protective equipment: Wear Protective equipment as described in Section 8.

Emergency procedures: Evacuate unnecessary personnel.

6.1.2. For emergency responders

Protective equipment: Wear suitable protective clothing, gloves and eye or face protection. For further information refer to section 8: “Exposure controls/personal protection”.

6.2. Environmental precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. Avoid release to the environment.

6.3. Methods and material for containment and cleaning up

For containment: Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.

Methods for cleaning up: Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Place in a suitable container for disposal in accordance with the waste regulations (see Section 13).

6.4. Reference to other sections

No additional information available

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling: Do not handle until all safety precautions have been read and understood. Provide good ventilation in process area to prevent formation of vapor. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Do not breathe vapours. Keep away from sources of ignition - No smoking. Use only non-sparking tools.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions: Ground and bond all transfer and storage equipment. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container closed when not in use.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.2. Exposure controls

Appropriate engineering controls: Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment with flammable materials. Ensure adequate ventilation, especially in confined areas.

Hand protection: Use gloves chemically resistant to this material when prolonged or repeated contact could occur. Be aware that the chemical may penetrate the gloves. Frequent changes are advisable. Gloves should be classified under Standard EN 374 or ASTM F1296. Suggested glove materials are: Neoprene, Nitrile/butadiene rubber, Polyethylene, Ethyl vinyl alcohol laminate, PVC or vinyl.

Eye protection: Wear eye protection, including chemical splash goggles and a face shield when possibility exists for eye contact due to spraying liquid or airborne particles.

Skin and body protection: Wear long sleeves, and chemically impervious PPE/coveralls to minimize bodily exposure.

Respiratory protection: Wear a NIOSH-approved (or equivalent) full-facepiece airline respirator in the positive pressure mode with emergency escape provisions. In case of inadequate ventilation or risk of inhalation of vapors, use suitable respiratory equipment with gas filter (type A2). Use a positive-pressure air-supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state: Liquid
Appearance: Clear
Color: Colorless
Odor: Mild solvent odor
Odor Threshold: No data available
pH: No data available
Relative evaporation rate (butylacetate=1): No data available
Relative evaporation rate (ether=1): < 1
Melting point: No data available
Freezing point: No data available
Boiling point: 63.89 - 168.89 °C (147-336 °F)
Flash point: -6.67 °C (20 °F) (Tag. Closed Cup)
Auto-ignition temperature: ≈ 237.78 °C (460 °F)
Decomposition temperature: No data available
Flammability (solid, gas): No data available
Vapour pressure: No data available
Relative vapour density at 20 °C: ≥ 1 (AIR = 1)
Relative density: No data available
Density: 0.84 lbs/gal
Solubility: Moderate solubility in water
Log Pow: No data available
**Log Kow**: No data available  
**Viscosity, kinematic**: No data available  
**Viscosity, dynamic**: No data available  
**Explosive properties**: No data available  
**Oxidising properties**: No data available  
**Explosive limits**: ≥ 2.6 vol % @ 25 °C (77 °F)

**9.2. Other information**  
**VOC content**: 824 g/l (6.84 lbs/gal)  
**Percent volatile by volume**: 100%

**SECTION 10: Stability and reactivity**

**10.1. Reactivity**  
No dangerous reactions known under normal conditions of use.

**10.2. Chemical stability**  
Stable under recommended handling and storage conditions (see section 7).

**10.3. Possibility of hazardous reactions**  
None known.

**10.4. Conditions to avoid**  
No flames, no sparks. Eliminate all sources of ignition.

**10.5. Incompatible materials**  
Strong oxidizing agents.

**10.6. Hazardous decomposition products**  
Carbon monoxide (CO), carbon dioxide (CO2).

**SECTION 11: Toxicological information**

**11.1. Information on toxicological effects**

**Acute toxicity**: Inhalation: Harmful if inhaled.

**SECTION 12: Ecological information**

12.1. **Toxicity**  
Ecology - general  
No information available.

12.2. **Persistence and degradability**  
Premium Lacquer Thinner  
Persistence and degradability  
No information available.

12.3. **Bioaccumulative potential**  
No additional information available.

12.4. **Mobility in soil**  
No additional information available.

12.5. **Other adverse effects**  
No additional information available.

**SECTION 13: Disposal considerations**

13.1. **Waste treatment methods**  
Waste treatment methods  
Do not discharge to public wastewater systems without permit of pollution control authorities. No discharge to surface waters is allowed without an NPDES permit.

Waste disposal recommendations  
Dispose in a safe manner in accordance with local/national regulations. Do not allow the product to be released into the environment.

**SECTION 14: Transport information**

In accordance with DOT  
Transport document description
