1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY/UNDERTAKING

Product Name: Raw Linseed Oil
Synonyms: Degummed Linseed Oil

Contact Manufacturer:
Sunnyside Corporation
225 Carpenter Ave.
Wheeling, IL 60090
800-323-8611
sscontact@sunnysidecorp.com
Emergency response telephone number:
Chemtrec 1-800-424-9300

2. HAZARDS IDENTIFICATION

Emergency Overview
Spontaneous combustion (fire) may result from oil soaked materials such as rags, steel wool, paper, and clothing. Place soaked materials in a sealed, metal container to prevent this.

Based on available information, this product is not known to fall into any of the specified health or physical hazard categories defined by 29 CFR 1910, amended to conform to the United Nations' Globally Harmonized System of Classification and Labelling of Chemicals (OSHA / GHS); SOR/88-66, the Canadian Controlled Products Regulations (CPR); and/or NOM-002-SCT-2003 (Mexico). No signal words, pictograms, hazard phrases or precautionary phrases are known to be applicable. However, vegetable oil (in mist form) is known to be listed as an OSHA 29 CFR 1910.1000 Air Contaminant. Occupational exposure limits are subsequently provided in section 8 of this SDS.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Common Name:
Raw Linseed Oil
Chemical Family:
Oil-Vegetable

Non-hazardous Components

4. FIRST AID MEASURES

**Description of first aid measures**

**General Advice** When symptoms persist or in all cases of doubt seek medical advice.

**Eye Contact** Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.

**Skin Contact** Wash off immediately with soap and plenty of water.

**Inhalation** Move to fresh air.

**Ingestion** Not for human consumption. Health injuries are not known or expected under normal use.

**Most important symptoms and affects, both acute and delayed**

**Eyes** Contact with eyes may cause mild irritation.

**Skin** Prolonged or excessive contact with skin may result in mild irritation, however, significant health injuries are not expected under normal use.

**Inhalation** Health injuries are not known or expected under normal use. When in the form of an airborne mist, refer to section 8 of this sheet for exposure limits pertaining to "vegetable oil mist". Excessive inhalation of mist may result in respiratory irritation.

**Ingestion** Overexposure may cause: Gastrointestinal disturbance. Health injuries are not known or expected under normal use.

**Indication of any immediate medical attention and special treatment needed**

**Notes to Physician** Treat symptomatically.

5. FIRE-FIGHTING MEASURES

**Flammable Properties**

Material may pose fire hazard because it is dispersed (or spread) by water.

**Extinguishing media**

**Suitable Extinguishing Media** Dry chemical. Carbon dioxide (CO\(_2\)). Dry powder. Foam. Fog. Sand. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

**Unsuitable Extinguishing Media** Do not use a solid water stream as it may scatter and spread fire.

**Special hazards arising from the substance or mixture**

**Hazardous Combustion Products** Thermal decomposition can lead to release of irritating gases and vapors, Carbon monoxide (CO), Carbon dioxide (CO\(_2\)), Acrolein.

**Specific Hazards Arising from the Chemical** Risk of ignition. Rags and other materials containing this product may heat and spontaneously ignite, if exposed to air. Store wiping rags and similar materials in water filled metal cans with tightly fitting lids. Cool closed containers exposed to fire with water spray.

**Sensitivity to mechanical impact** No information available.

**Sensitivity to static discharge** No information available.

**Advice for fire-fighters**

**Protective Equipment and Precautions for Firefighters** As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

**NFPA**

6. ACCIDENTAL RELEASE MEASURES

**Personal Precautions**

Avoid high pressure washing or generation of aerosols. Material can create slippery conditions.

**Environmental Precautions**

Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system.

**Methods for Clean-up**

Dam up. Soak up with inert absorbent material. Use dry spill kit material or sand, collect in appropriate containers. For disposal information see section 13. Clean contaminated surface thoroughly.

**Other Information**

Oil soaked materials may spontaneously combust.
7. HANDLING AND STORAGE

Handling
Ensure adequate ventilation. Do not use pressure to empty drums. Keep away from open flames, hot surfaces and sources of ignition. Avoid breathing vapors or mists. Avoid contact with skin, eyes and clothing.

Storage
Keep containers tightly closed in a cool, well-ventilated place. To maintain product quality, do not store in heat or direct sunlight.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits
As an airborne mist containing vegetable oil, exposure limits pertaining to "vegetable oil mist" have been provided below

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>ACGIH TLV</th>
<th>OSHA PEL</th>
<th>MEXICO</th>
<th>NIOSH</th>
</tr>
</thead>
<tbody>
<tr>
<td>vegetable oil mist</td>
<td>TVL: 10 mg/m(3)</td>
<td>TWA: 5 mg/m³ mist, respirable fraction</td>
<td>TWA: 10 mg/m³ except irritant oils</td>
<td>TWA: 10 mg/m³ total mist TWA: 5 mg/m³ respirable mist</td>
</tr>
</tbody>
</table>

Engineering Measures
Ensure adequate ventilation, especially in confined areas. Apply technical measures to comply with the occupational exposure limits. However it is the duty of the user to verify this and follow given exposure limits at the workplace.

General Hygiene Considerations
Handle in accordance with good industrial hygiene and safety practice.

Personal Protective Equipment
Eye/face Protection.
If exposed to airborne dust, appropriate safety glasses with side-shields or safety goggles are recommended.

Skin and Body Protection
Oil resistant gloves are recommended. Appropriate body protection should be selected based on activity and possible exposure. Also take into consideration the specific local conditions under which the product is used.

Respiratory Protection
In case of mist, spray or aerosol exposure wear suitable personal respiratory protection.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Clear Amber

Physical State
Liquid

Odor
Characteristic

Odor Threshold
No information available

pH
No information available

Flash Point
> 99 °C / 210 °F

Autoignition Temperature
> 344 °C / 651 °F

Boiling point
No information available

Melting/Freezing Point
No information available

Decomposition temperature
No information available

Oxidizing Properties
No information available

Water Solubility
Negligible

Evaporation Rate
Nonvolatile

Vapor Pressure
No information available

Vapor Density
Nonvolatile

Specific Gravity / Relative Density
0.93 @ 25°C / 77°F

Viscosity
A (Gardner Scale)

Partition Coefficient
(n-octanol/water)
No information available

North America (OSHA/GHS and WHMIS Compliant)
10. STABILITY AND REACTIVITY

**Stability** Stable under normal conditions.
**Possibility of Hazardous Reactions** Hazardous polymerization does not occur.
**Conditions to Avoid** Keep away from open flames, hot surfaces and sources of ignition. Rags and other materials containing this product may heat and spontaneously ignite, if exposed to air. Store wiping rags and similar materials in water filled metal cans with tightly fitting lids.
**Incompatible Materials** No materials to be especially mentioned.
**Hazardous Decomposition Products** Thermal decomposition can lead to release of irritating gases and vapors, Acrolein, Smoke, Fumes, Carbon monoxide (CO), Carbon dioxide (CO₂).

11. TOXICOLOGICAL INFORMATION

**Information on toxicological effects**

| Acute toxicity                           | Based on available data, no evidence of acute toxicity. |
| Skin corrosion/irritation                | Based on available data, not, or only slightly irritating. |
| Serious eye damage/eye irritation        | Based on available data, no evidence of serious eye damage / irritation. |
| Respiratory or skin sensitisation       | Based on available data, not expected to be a skin or respiratory sensitiser. |
| Germ cell mutagenicity                  | Based on available data, the classification criteria are not met. |
| Carcinogenicity                         | Based on available data, no evidence of carcinogenicity. |
| Reproductive toxicity                   | Based on available data, no evidence of reproductive toxicity |
| STOT - single exposure                  | Based on available data, the classification criteria are not met. |
| STOT - repeated exposure                | Based on available data, the classification criteria are not met. |
| Aspiration hazard                       | Based on available data, no known aspiration hazard. |

**Potential health effects**

- **Eyes**
  - Contact with eyes may cause mild irritation.
- **Skin**
  - Prolonged or excessive contact with skin may result in mild irritation, however, significant health injuries are not expected under normal use.
- **Inhalation**
  - Health injuries are not known or expected under normal use. When in the form of an airborne mist, refer to section 8 of this sheet for exposure limits pertaining to "vegetable oil mist". Excessive inhalation of mist may result in respiratory irritation.
- **Ingestion**
  - Overexposure may cause: Gastrointestinal disturbance. Health injuries are not known or expected under normal use.

12. ECOLOGICAL INFORMATION

**Ecotoxicity**
Contains no substances known to be hazardous to the environment. Contains no substances known to be not degradable in waste water treatment plants.

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>Fresh Water Algae</th>
<th>Acute Fish Toxicity</th>
<th>Daphnia (Water flea)</th>

</tr>
</tbody>
</table>

**Persistence/Degradability**
Readily biodegradable.

**Mobility**
The product is insoluble and floats on water.
13. DISPOSAL CONSIDERATIONS

Whenever possible, as rules and regulations allow, please recycle or manage materials to minimize waste.

**Waste Disposal Methods**
Dispose of in compliance with the laws and regulations pertaining to this product in your jurisdiction. Oil soaked materials may spontaneously combust and should be properly managed to avoid ignition and heat sources or oxygen rich environments. Collect and store soaked materials in closed, water filled metal containers to help prevent combustion.

**Contaminated Packaging**
Empty containers should be decontaminated and taken for local recycling, recovery or waste disposal. Oil soaked materials may spontaneously combust. Store soaked materials in a sealed, metal container to prevent this.

14. TRANSPORT INFORMATION

**Domestic transport regulations (USA)**
- DOT Not regulated

**Domestic transport regulations (Canada)**
- TDG Not regulated

**Domestic transport regulations (Mexico)**
- MEX Not regulated

**International transport regulations**
- ICAO Not regulated
- IATA Not regulated
- IMDG/IMO Not regulated

Federal Regulations
Ozone Depleting Substances:
No Class I or Class II material is known to be used in the manufacture of, or contained in, this product.

SARA 313
Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product is not known to contain any chemicals which are subject to the reporting requirements of the Act or regulations contained in 40 CFR 372.

CERCLA/SARA 103-302
Sections 103-302 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product is not known to contain any chemicals which are subject to the reporting requirements of the Act or regulations contained in 40 CFR 103-302.

SARA 311/312 Hazardous Categorization
- Acute Health Hazard: No
- Chronic Health Hazard: No
- Fire Hazard: No
- Sudden Release of Pressure Hazard: No
- Reactive Hazard: No

Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 63)
This product is not known to contain any HAPS.

State Regulations
California Proposition 65
Proposition 65 chemicals are not expected to be found in this product above those naturally present in their agricultural source. Proposition 65 exempts naturally occurring listed chemicals from an obligation to label.
